

SIECUS

State Profile

KANSAS

In Fiscal Year 2013,¹ the state of Kansas received:

- **Division of Adolescent and School Health funds totaling \$59,996**
- **Personal Responsibility Education Program funds totaling \$469,118**
- **Title V State Abstinence Education Program funds totaling \$373,459**

SEXUALITY EDUCATION LAW AND POLICY

The Kansas Administrative Regulations require elementary and secondary students to be taught “physical education, which shall include instruction in health and human sexuality.”² Kansas does not require schools to follow a specific curriculum; however, in order to be accredited, schools must meet the minimum “performance and quality criteria” established by the Kansas State Board of Education.³

The *Kansas Health Education Standards* outline basic competency requirements for public schools. According to the standards, by the end of the fourth grade, schools must provide instruction on “family life and sexuality.”⁴ By the end of the eighth grade, students should be able to “describe ways to reduce risks related to adolescent growth and development,” and understand the “development of male and female reproductive organs, and risks and prevention of sexually-transmitted infections.”⁵ By graduation, schools must teach students about the “importance and benefits of abstinent behavior and risk-reducing strategies” in the area of sexuality.⁶

Kansas does not require parental permission for students to participate in sexuality or HIV/AIDS education, nor does it say whether parents or guardians may remove their children from such classes.

See Kansas Administrative Regulations § 91-31-32 and *Kansas Health Education Standards*.

2013 STATE LEGISLATIVE ACTIVITY

Bill to Prohibit Sex Education by Abortion Providers

In May 2013, Kansas Governor Sam Brownback signed HB 2253/SB 142—an omnibus anti-abortion bill that bans sex-selective abortion, ends tax breaks for organizations that provide abortions, and states that life begins at conception—into law. The law, targeting Planned Parenthood, also bars anyone who works or volunteers for an abortion provider from teaching sex education in schools.

YOUTH SEXUAL HEALTH DATA

SIECUS has compiled the following data to provide an overview of adolescent sexual health in Kansas. The data collected represents the most current information available.

Kansas Youth Risk Behavior Survey (YRBS) Data⁷

- In 2013, 37.7% of female high school students and 40.3% of male high school students in Kansas reported ever having had sexual intercourse, compared to 46% of female high-school students and 47.5% of male high-school students nationwide.
- In 2013, 2.7% of female high-school students and 3.5% of male high-school students in Kansas reported having had sexual intercourse before age 13, compared to 3.1% of female high-school students and 8.3% of male high-school students nationwide.
- In 2013, 29.5% of female high-school students and 26.8% of male high-school students in Kansas reported being currently sexually active (defined as having had sexual intercourse in the three months prior to the survey), compared to 35.2% of female high-school students and 32.7% of male high-school students nationwide.
- In 2013, 9.4% of female high-school students and 5.9% of male high-school students in Kansas who dated or went out with someone during the 12 months before the survey reported experiencing physical dating violence one or more times during that time period (defined as being hit, slammed into something, or injured with an object or weapon on purpose by someone they were dating or going out with), compared to 13% of female high-school students and 7.4% of male high-school students nationwide.

Visit the Centers for Disease Control and Prevention's [Youth Online database](#) for additional information on sexual behaviors.

Kansas Teen Pregnancy, HIV/AIDS, and Other STD Data

Teen Pregnancy, Birth, and Abortion

- In 2010, Kansas' teen pregnancy rate ranked 28th in the United States, with a rate of 53 pregnancies per 1,000 young women ages 15–19, compared to the national rate of 57 per 1,000.⁸ There were a total of 5,220 pregnancies among young women ages 15–19 reported in Kansas in 2010.⁹
- In 2012, Kansas' teen birth rate ranked 16th in the United States, with a rate of 34.1 births per 1,000 young women ages 15–19, compared to the national rate of 29.4 per 1,000.¹⁰ In 2012, there were a total of 3,306 live births reported to young women ages 15–19 in Kansas.¹¹
- In 2010, Kansas' teen abortion rate ranked 47th in the United States, with a rate of five abortions per 1,000 young women ages 15–19, compared to the national rate of 15 per 1,000.¹² There were a total of 530 abortions among young women ages 15–19 reported in Kansas in 2010.¹³

HIV and AIDS

- In 2011, the rate of diagnoses of HIV infection among adolescents ages 13–19 in Kansas was 1.8 per 100,000, compared to the national rate of 7.6 per 100,000.¹⁴
- In 2011, the rate of AIDS diagnoses among adolescents ages 13–19 in Kansas was 0.8 per 100,000, compared to the national rate of 1.9 per 100,000.¹⁵

- In 2011, the rate of diagnoses of HIV infection among young adults ages 20–24 in Kansas was 14.5 per 100,000, compared to the national rate of 36.3 per 100,000.¹⁶
- In 2011, the rate of AIDS diagnoses among young adults ages 20–24 in Kansas was 4.7 per 100,000, compared to the national rate of 10.9 per 100,000.¹⁷

Sexually Transmitted Diseases

- In 2012, Kansas ranked 34th in the United States for reported cases of chlamydia among young people ages 15–19, with an infection rate of 1,700.7 cases per 100,000, compared to the national rate of 2,001.7 per 100,000. In 2012, there were a total of 3,478 cases of chlamydia reported among young people ages 15–19 in Kansas.¹⁸
- In 2012, Kansas ranked 30th in the United States for reported cases of gonorrhea among young people ages 15–19, with an infection rate of 238.1 cases per 100,000, compared to the national rate of 376.8 per 100,000. In 2012, there were a total of 487 cases of gonorrhea reported among young people ages 15–19 in Kansas.¹⁹
- In 2012, Kansas joined nine other states with a primary and secondary syphilis infection rate of zero among young people ages 15-19, compared to the national rate of 4.1 cases per 100,000.²⁰

FEDERAL FUNDING FOR SEX EDUCATION, TEEN PREGNANCY PREVENTION, AND ABSTINENCE-ONLY-UNTIL-MARRIAGE PROGRAMS

President’s Teen Pregnancy Prevention Initiative

The President’s Teen Pregnancy Prevention Initiative (TPPI) funds medically accurate and age-appropriate programs to reduce teen pregnancy. The U.S. Department of Health and Human Services, Office of Adolescent Health (OAH) administers the grant program, which totaled \$105 million in discretionary funding for FY 2013. TPPI consists of two funding tiers that provide grants to local public and private entities. Tier 1 totals \$75 million and provides funding for the replication of evidence-based programs proven to prevent unintended teen pregnancy and address underlying behavioral risk factors. Tier 2 totals \$25 million and provides funding to develop and test additional models and innovative strategies. A portion of the Tier 2 funds, \$15.2 million, was allocated for research and demonstration grants to test innovative approaches, while the remaining funding, \$9.8 million, was allocated for grants to support communitywide initiatives. OAH utilizes the remaining appropriated funds to provide program support, implementation evaluation, and technical assistance to grantees. TPPI also dedicates \$8.5 million in funding to conduct evaluations of individual programs.

TPPI Tier 1: Evidence-Based Programs

The TPPI Tier 1 grant program supports the replication of evidence-based programs proven effective through rigorous evaluation to prevent unintended teen pregnancy and minimize underlying behavioral risk factors or other associated risk factors.

- There are no TPPI Tier 1 grantees in Kansas.

TPPI Tier 2: Innovative Approaches

The TPPI Tier 2 grant program supports research and demonstration programs in order to develop, replicate, refine, and test additional models and innovative strategies for preventing teenage pregnancy.

- There are no TPPI Tier 2 Innovative Approaches grantees in Kansas.

TPPI Tier 2: Communitywide Initiatives

The TPPI Tier 2 grant program also supports communitywide initiatives to reduce rates of teenage pregnancy and births in communities with the highest rates. The program awards grants to national organizations as well as state- and community-based organizations. Funded national partners provide training and technical assistance to local grantees. The Centers for Disease Control and Prevention (CDC) administer the grant program in partnership with OAH.

- There are no TPPI Tier 2 Communitywide Initiatives grantees in Kansas.

Division of Adolescent and School Health

The Division of Adolescent and School Health (DASH), within the Centers for Disease Control and Prevention (CDC), provides funding to 17 state and 19 local education agencies to help districts and schools strengthen student health through exemplary sexual health education (ESHE) that emphasizes HIV and other STD prevention, increased access to key sexual health services (SHS), and the establishment of safe and supportive environments (SSE) for students and staff. In addition, DASH funds nine national non-governmental organizations (NGOs) to help state and local education agencies achieve these goals.

- There were no DASH grantees in Kansas funded to strengthen student health through ESHE, SHS, and SSE in FY 2013.

DASH also funds three local education agencies and one NGO to implement multiple program activities to meet the HIV/STD-prevention needs of young men who have sex with men (YMSM) and to develop strategic partnerships and collaborations between schools and community-based, mental health, and social services organizations to accomplish this work.

- There were no DASH grantees in Kansas funded to deliver YMSM programming in FY 2013.

DASH also provides funding for state, territorial, and local education agencies and state health agencies to establish and strengthen systematic procedures to collect and report Youth Risk Behavior Survey (YRBS) and School Health Profiles data for policy and program improvements.

- There is one DASH grantee in Kansas funded to collect and report YRBS and School Health Profiles data in FY 2013, the Kansas State Department of Education (\$59,996).

Pregnancy Assistance Fund

The Pregnancy Assistance Fund (PAF), administered by OAH, provides expecting and parenting teens, women, fathers, and their families with a network of support services. Established in FY 2010 through a 10-year authorization (FY 2010–FY 2019) in the Affordable Care Act (ACA), PAF is a \$25 million competitive grant program for state and tribal entities. PAF grants support programs that include at least one of the following four components: 1) support for expectant and parenting student services at institutions of higher education; 2) support for expectant and parenting teens, women, fathers, and their families at high schools and community centers; 3) improved services for pregnant women who are victims of domestic violence, sexual violence, sexual assault, and stalking; and 4) increased public awareness and education services for expectant and parenting teens, women, fathers, and their families. Now in the second round of awards, PAF supports 17 entities in 14 states and three tribal entities, most of which focus their efforts on serving teen parents.

- There are no PAF grantees in Kansas.

Personal Responsibility Education Program

The Personal Responsibility Education Program (PREP) totals \$75 million per year for FYs 2010–2014 and is the first-ever dedicated funding stream for more comprehensive approaches to sexuality education.

The U.S. Department of Health and Human Services, Administration for Children and Families (ACF) administers the grant. PREP includes a \$55 million state grant program, \$10 million to fund local entities through the Personal Responsibility Education Innovative Strategies (PREIS) program, \$3.1 million for Tribal PREP, for tribes and tribal organizations, and with remaining funds for evaluation, training, and technical assistance. In addition, provisions within the statute for PREP enable a competitive application process for community- and faith-based organizations within states and territories that do not directly seek PREP funding by the third year of the program; these competitive PREP (CPREP) grants were awarded to organizations in five states and three territories in FY 2013. Details on the state grant program, PREIS, Tribal PREP, and CPREP are included below.

PREP State-Grant Program

The PREP state-grant program supports evidence-based programs that provide young people with medically accurate and age-appropriate information for the prevention of unintended pregnancy, HIV/AIDS, and other sexually transmitted diseases (STDs). The grant program totals \$55 million per year and allocates funding to individual states. The grant does not require states to provide matching funds. Funded programs must discuss abstinence and contraception, and place substantial emphasis on both. Programs must also address at least three of the following adulthood preparation subjects: healthy relationships, positive adolescent development, financial literacy, parent-child communication skills, education and employment skills, and healthy life skills.

- The Kansas Department of Public Health, the STI/HIV Section, received \$469,118 in federal PREP funds for FY 2013.
- The department provides sub-grants to three local health departments: Johnson County Health Department (\$158,445), Sedgwick County Health Department (\$158,445), and Wyandotte County Health Department (\$158,445).²¹

Johnson County Health Department, \$158,445 (FY 2013)

Johnson County Health Department uses its PREP sub-grant to provide afterschool programming to students ages 11–14 in the Blue Valley, DeSoto, Olathe, Shawnee Mission, and Spring Hill school districts. The health department implements *Making a Difference!* and the programming requires the following adulthood preparation topics: healthy relationships, adolescent development, and parent-child communication.²²

Sedgwick County Health Department, \$158,445 (FY 2013)

The Sedgwick County Health Department implements *Reducing the Risk, Making a Difference!*, and *Be Proud! Be Responsible! Be Protected!* to pregnant/parenting teens seen through the health department and to students attending Sedgwick County public schools.²³

Wyandotte County Health Department, \$158,445 (FY 2013)

The Wyandotte County Health Department uses its PREP funds to partner with Wyandotte County Corrections in an effort to serve incarcerated men. The health department implements the *Rikers Health Advocacy Program* and requires the following adulthood preparation topics: healthy relationships, adolescent development, and healthy life skills.²⁴

Personal Responsibility Education Innovative Strategies (PREIS)

PREIS supports research and demonstration programs to develop, replicate, refine, and test innovative models for preventing unintended teen pregnancy. ACF administers the grant program in collaboration with OAH and provides a total of \$10 million in funding directly to local public and private entities.

- There are no PREIS grantees in Kansas.

Tribal Personal Responsibility Education Program (Tribal PREP)

Tribal PREP supports the development and implementation of comprehensive teen pregnancy prevention programs within tribes and tribal communities. Tribal PREP programs target youth ages 10–19 who are in or are aging out of foster care, homeless youth, youth with HIV/AIDS, pregnant and/or parenting youth who are under 21 years of age, and youth who live in areas with high adolescent birth rates. Programs must address at least three of the following adulthood preparation subjects: healthy relationships, positive adolescent development, financial literacy, parent-child communication skills, education and employment skills, and healthy life skills.

- In FY 2013, 16 tribes and tribal organizations from nine states received a total of \$3.1 million.
- There are no Tribal PREP grantees in Kansas.

Competitive Personal Responsibility Education Program (CPREP)

CPREP grants support evidence-based programs that provide young people with medically accurate and age-appropriate information for the prevention of unintended pregnancy, HIV/AIDS, and other STDs. Organizations and institutions in states and territories that did not apply for PREP formula grants in either of the past two fiscal years were eligible to submit competitive applications for CPREP grants. Thirty-seven grants, totaling \$18.6 million, were awarded in FY 2013 to organizations in American Samoa, the Commonwealth of Northern Mariana Islands, Florida, Guam, Indiana, North Dakota, Texas, and Virginia.

- There are no CPREP grantees in Kansas.

Title V State Abstinence Education Grant Program

The Title V abstinence-only-until-marriage (Title V AOUM) program, administered by ACF, allocates \$50 million per year for FYs 2010–2014. The Title V AOUM program requires states to provide three state-raised dollars or the equivalent in services for every four federal dollars received. The state match may be provided in part or in full by local groups. All programs funded by Title V AOUM must promote abstinence from sexual activity as their exclusive purpose and may provide mentoring, counseling, and adult supervision toward this end. Programs must be medically accurate and age-appropriate and must ensure abstinence is an expected outcome.

- The Kansas State Department of Health and Environment received \$373,459 in federal Title V AOUM funding for FY 2013.
- The department chose to sub-grant most of the funds to the Children’s Alliance of Kansas, Inc. (\$368,460).²⁵
- In Kansas, the match is provided by the sub-grantee through a combination of direct revenue and in-kind services.

The Kansas State Department of Health and Environment’s Bureau of Family Health administers the state’s Title V AOUM grant in collaboration with the single sub-grantee, the Children’s Alliance of Kansas, Inc. The Children’s Alliance provides foster parents with abstinence-only-until-marriage instruction, mentoring, counseling, and adult supervision training in order to promote abstinence from sexual activity to young people in foster care. Programming is for youth ages 10–19 in Atchison, Barton, Cloud, Douglas, Ellis, Ford, Franklin, Harvey, Johnson, Mitchell, Neosho, Ottawa, Phillips, Seward, Rawlins, Riley, Saline, Sedgwick, Shawnee, and Wyandotte counties. The Children’s Alliances uses the curricula *Choices*, *All Stars*, and *Healthy Relationships*.²⁶

Competitive Abstinence Education Grant Program

Administered by the ACF, the Competitive Abstinence Education (CAE) grant program provides grants for “abstinence education” as defined by the A–H statute in Title V of the Social Security Act, as well as for mentoring, counseling, and adult supervision that promotes abstinence outside of marriage. As currently implemented by ACF, the programs must also be medically accurate.

K A N S A S

In FY 2013, \$4.3 million was granted through a competitive application process to 10 grantees across nine states, in addition to the nine grantees implementing the second year of their CAE awards in some overlapping and additional states, for a total of 19 CAE grantees in 14 states.

- There are no CAE grantees in Kansas.

Kansas TPPI, DASH, PAF, PREP, Title V AOUM, and CAE Funding in FY 2013
