Introduction

Introduction

The 2024 Sex Ed Legislative Mid-Year Report summarizes key policy developments in sex education during the first half of 2024. The report examines state and federal legislation, as well as emerging trends in the ongoing fight for comprehensive sex education. It also provides insight into the current federal funding process for adolescent sexual health programs and forecasts the landscape for advancing sex education, considering upcoming elections, active legislation, and the evolving strategies of opposing groups. This addendum to the report contains a comprehensive list of state legislation tracked by SIECUS up until the midpoint of the year. Following the state bill table is a chart summarizing estimated budget proposals for Fiscal Year 2025 thus far compared to final FY2024 numbers.
